

# Lab 5 Writing Assignment

## Introductions

### Writing Assignment

In this writing assignment you will learn to write an introduction to a technical memo or lab report. Introductions serve several purposes:

1. State relevant background information about the completed work to put it in context. Prior work must be properly referenced and cited.
2. Briefly communicate the remaining content of the report.

### Learning Objectives

By the end of this writing assignment you will...

- Write a 2-3 paragraph introduction to provide the context for your experiment
- Create a bibliography with properly formatted references.
